Dear Ria,

I wanted to give you a quick update on our group project. So far, we have completed the initial research and divided the work among the team members. We have also started working on the main parts of the project, and most of the work is progressing well.

One challenge we have faced is coordinating everyone’s schedules, as it has been a little difficult to find time when all the team members are available. We are working around this by keeping in touch and completing our individual tasks on time.

Given our current progress, we expect to finish the project by 10 October 2026. We’ll make sure to complete the remaining work and review everything before submitting it.

Thank you for your support. Please let me know if you need any additional information from me.

Best regards,

Prisha B M
